Profile

Software engineer with a background in front-end development and a strong interest in UX/UI design. During my studies, I also worked as a freelance illustrator, which helped me develop a good eye for visuals and detail. I enjoy creating clean, user-friendly interfaces that feel intuitive and look good.

Education

- | | |
|--|-----------------------|
| Ecole d'Ingénieur en Informatique (EPITA) – Paris, France | Sept 2024 - Present |
